Summary

Software Engineering student at Tunku Abdul Rahman University of Management and Technology (TARUMT) with strong foundations in software development processes, database systems and software architectures. Proficient in Python, C#, SQL, HTML, and Java. Interested in developing software solutions, database design, computer vision and machine learning. Eager to learn from experienced developers and engineers to develop these skills in a real-world development environment

Education

Tunku Abdul Rahman University of Technology and Management (TARUMT)
Foundation in Computing • 3.78 CGPA

2021 - 2022

Courses: Introduction to Programming, Data Management, Introduction to Computer Networks, Web Development.

Tunku Abdul Rahman University of Technology and Management (TARUMT)
Bachelor in Software Engineering • 3.39 CGPA

2023 - Present

Courses: Software Engineering, Problem Solving and Programming, Software Design and Architecture, Cloud Computing, Artificial Intelligence, Data Structures and Algorithms, Advanced Database Management, Web Application Development.

Projects

Sign Language Translation Application (Final Year Project) 2025 - Present

- Conducting dataset preparation and analysis across multiple sign language datasets to address data quality and class imbalance
- Applying computer vision techniques using MediaPipe to extract hand landmark data from video/image input as model features
- Developing and optimizing machine learning models using TensorFlow for real-time inference
- Applying mobile development principles to integrate a Python-based ML pipeline with a Kotlin-based Android front-end

Certifications

AI Untuk Rakyat (Badge 1: AI Aware) March 2024

MyDigital / Intel

Programming Skills

Python

C#

SQL

Java

HTML

Others

- MySQL
- MSSQL
- Image processing (Mediapipe, OpenCV)
- Machine Learning (Tensorflow)
- Data Analysis (Matplotlib, Pandas)

Languages

English

Fluent (Band 4.5)

Malay

Fluent
